

Directory of Programs and Resources for Students who are Deaf and Hard of Hearing

2001

Vito A. Gagliardi, Sr.
Commissioner of Education

Gloria Hancock, Acting Assistant Commissioner
Division of Student Services

Barbara Gantwerk, Director
Office of Special Education Programs

Roberta Wohle, Manager
Bureau of Program Development

Therese Sheehan, Coordinator
David Alexander, Consultant
Bureau of Program Development

New Jersey Department of Education
PO Box 500
Trenton, New Jersey 08625-0500
PTM#

ACKNOWLEDGEMENTS

This document reflects the collaborative efforts of many staff members within the Office of Special Education Programs, as well as the project staff within the numerous programs for students who are deaf/hard of hearing. The department would like to acknowledge the efforts of Patricia Holcomb-Gray, technology coordinator, for her skills, expertise and design of the document. Former staff interpreters, Kristen Fitzgerald and Meagan Mearis, contributed considerable research on the resource section of the document. Stacy Pelligrino offered her data entry skills and assisted with developing the program report format.

The critiques and edits of the document drafts by additional OSEP staff members are sincerely appreciated. The Department of Education staff would like to express their thanks to everyone who participated in this project.

INTRODUCTION

This directory is designed to provide updated information to parents, educators and administrators on the programs and services available to students who are deaf or hard of hearing. The program section includes self-reported information from directors of special services and directors of programs within New Jersey who employ a teacher of the deaf/hard of hearing for at least one student as of September 1, 2000. Early intervention, preschool, elementary, secondary, post-secondary and vocational programs are reported by county in alphabetical order. The number of students served, the classifications and eligibility categories of the student population, and the types of programs and related services offered are noted.

The resources component of this document includes local, state and national agencies and organizations which would be beneficial for children, youth and young adults from birth through twenty one years of age. These include child study team services, mental health and substance abuse resources, financial aid and scholarship information, parent groups, recreation and camps, and organizations providing information and training on deafness and hearing impairment. Information for students transitioning from school to work or from school to postsecondary education is also included.

If more information is needed about a program or resource, a contact person and phone numbers are provided for each program and organization. Voice and text telephones are indicated, as well as fax numbers, e-mail addresses and web site, where available.

The Office of Special Education Programs, NJ Department of Education, employs a state coordinator and a state consultant for students who are deaf or hard of hearing, as well as a project director for students with dual sensory impairments. They are available for technical assistance and additional information. Please see the State Resources section for the contact information.

Age Range: 3 to 21 years

Program Description:

Millburn Regional Day School, operated by the Bergen County Special Services School District, is a program serving students with multiple disabilities, ages 3 through 21. The goal of the Millburn School is to promote student independence, and to help students reach their full potential within their communities. To reach this goal, students are instructed with a comprehensive academic, vocational, and functional curriculum, which is integrated with an intensive therapy program offering speech, physical, and occupational therapies. Underlying all the work at Millburn is the commitment to "total communication" including sign language, augmentative communication, and assistive computer technology.

Operated by: Camden County College

Enrollment: 65

Age Range: 18 to 50 years

Program Description:

The center was established in 1988 in response to a demand for comprehensive services for students who are deaf and hard of hearing at the postsecondary level in the state of New Jersey. The center is funded by Camden County College, the New Jersey Commission on Higher Education Special Needs Grant Program, and the New Jersey Division of Vocational Rehabilitation Services. As a New Jersey Regional Center, Camden County College also provides technical assistance to other New Jersey post-secondary institutions serving students who are deaf or hard of hearing. The college is also the New Jersey state site for NETAC (Northeast Technical Assistance Center), which is dedicated to working with postsecondary institutions to improve educational access and enhance opportunities for students who are deaf or hard of hearing. The Center for the Deaf and Hard of Hearing at Camden County College in Blackwood, New Jersey offers certificate and degree programs for students who are deaf or hard of hearing seeking career and academic training.

Enrollment: 3

Age Range: 6 to 8 years

Program Description:

Currently, there are three resident students with a profound hearing loss, one of whom has a cochlear implant. These students have average to above-average ability and are integrated into regular education programs. The two older students are able to do this and be successful with the services of a sign language interpreter. The third student with the cochlear implant has a "shadow" to aid in re-directing her when she does not fully understand teacher directions. In addition, this child has been placed in a classroom with an FM system, as well as a sound field system. Support services are provided in the area of language development, reading and writing with the teacher of the deaf.

Students from out of district are not accepted due to the great difficulty in finding sign language interpreters.

E Mail Address: Kathymf@yahoo.com

Web Address: special.capemayschools.com/

Operated by: Cape May County Special Services

Enrollment: 7

Age Range: 5 to 10 years

Program Description:

The integrated auditorily handicapped resource center program serves students from five to ten years of age on a full-time basis in a regular education public school building in Dennis Township. The teacher of the deaf provides language and reading instruction in a pull-out resource center. Opportunities for team-teaching occur between the teacher of the deaf and regular education teachers. Students who are deaf/hard of hearing are placed in regular education programs for a variety of academic and special subjects depending upon their academic level, and social and communication skills. A sign language interpreter is provided for all integrated activities, classes and assemblies.

The program has a primary focus on developing communication skills necessary for successful inclusion with other students. When developing each student's individual program, consideration is given to the many factors impacting on his/her education, including communication and linguistic needs, severity of the hearing loss, academic level, and social, emotional and cultural needs.

The long-term goals of this program are to provide students with the skills necessary for success in the regular education program and to develop their self esteem as deaf individuals.

Newark Technology High School Program for Students Who Are Deaf

187 Broadway

Newark, New Jersey 07104

Contact Information: Ms. Wanda Roberts, Counselor

Phone: (973) 497-5795

Fax: (973) 497-5786

TTY: (973) 497-5795

E Mail Address:

Web Address: www.nps.k12.nj.us/

Operated by: Newark

Enrollment: 12

Age Range: 14 to 20 years

Program Description:

Newark's secondary program for the deaf opened its doors to students who are deaf/hard of hearing in 1997. The program is within Technology High School, one of Newark's magnet public high schools. The program accepts out-of-district placements.

The integration of students in the mainstream classes exposes them to an environment where language is used spontaneously in natural situations. The program is divided into three tiers -- self-contained instruction, partial mainstreaming and full mainstreaming.

The team has outstanding credentials and experience. Each is committed and sensitive to the students' needs and learning environments.

The Newark Technology High School Program curricula is consistent with the high school requirements of the state of New Jersey and the Newark Public School District, offering a quality educational program .

Operated by: Gloucester County Special Services School District

Enrollment: 23

Age Range: Birth to 21 years

Program Description:

Gloucester County Special Services School District (GCSSSD) operates programs for deaf and hard of hearing students birth through twenty-one years of age. The programs are staffed by certified teachers of the deaf, speech-language specialists, a certified audiological consultant, teacher assistants with sign language skills, and interpreters for the deaf. Occupational and physical therapies are available on an as-needed basis.

The early intervention program is offered to eligible families with children ages birth to three in Gloucester and Camden counties. Referrals originate from Gloucester and Camden County Special Child Health Services. Early intervention services are delivered in the child's natural environment (i.e. home and/or day care facilities) and are designed to meet individual communication, motor and cognitive needs. Families are active participants and are a vital component in the child's program.

GCSSSD academic programs for children who are deaf/hard of hearing ages 3 to 21 are provided within Gloucester County's regular education facilities. The preschool and elementary (kindergarten through 5th grade) programs are located in the Greenwich Public School District. The middle school (6th through 8th grade) and the high school program (9th through 12th grade) operate within Washington Township Public Schools. Curriculum materials parallel that of the host school district. Program delivery at all sites is accomplished through placements including self-contained classrooms, resource centers, in-class support and mainstreaming. Sign language classes and parent support meetings are also available to families of the students enrolled in these programs.

Program Description:

The Jersey City Program for Students who are Deaf/Hard of Hearing serves preschool through high school-aged students. The preschool through elementary program is housed at P.S. #27. The high school program is at McNair Academic High School. The program options include a regular education program with teachers of the deaf providing in-class support, as well as self-contained classes. All of the students receive speech/language therapy and training in total communication. In addition, all of the youngsters participate in all school activities and are fully mainstreamed for all nonacademic subjects.

Operated by: South Brunswick Twp

Enrollment: 14

Age Range: 5 to 16 years

Program Description:

The Oral/Aural program was started at Greenbrook School in 1988. Students who are deaf/hard of hearing were placed in regular education classes in order to provide these students with a peer group. They are supported by a teacher of the deaf, speech-language pathologist and an itinerant classroom aide. Classroom teachers receive consultation services from the teacher of the deaf and the speech and language specialist in order to coordinate the regular education curricula with the students' specialized needs.

All of the classrooms, which serve the students who are deaf, are carpeted. Many also have sound field systems. When appropriate, students wear personal FM systems. All classroom teachers and specialists are trained to use the FM systems and are provided with training for classroom management techniques which may be necessary for the students to succeed in the academic setting.

Enrollment: 13

Age Range: 3 to 14 years

Program Description:

Manalapan-Englishtown offers a comprehensive program for all the deaf students, depending on their needs. Participation in regular education programs is offered with resource center support with teachers of the deaf. Sign language interpreters, sound field systems for students with cochlear implants and FM systems are available. The students receive speech/language therapy according to their individualized education programs (IEPs). The classroom teachers attend meetings where they are provided with educational strategies for the deaf students in their classrooms. The older students are offered the services of a notetaker. Manalapan-Englishtown strives to create appropriate programs to meet the needs of deaf students.

Age Range: Birth to 19 years

Program Description:

The Neptune Township Regional Deaf Education Program is sponsored by Neptune Township Board of Education. Services begin with the Neptune Township Early Intervention Program (EIP) funded by the NJ Department of Health and Senior Services with IDEA Part C funds. The EIP serves twenty-five families and their children (0-3 years) in natural environments of home, work or play.

Neptune also has a continuum of educational options for students from preschool age through high school, utilizing a total communication approach. Self-contained classes are available, as well as in-class support with a teacher of the deaf in regular education classes. Interpreter services are provided during elementary specials such as physical education, music, art, and library. Interpreter services are also provided for all regular education classes at Neptune Middle School and High School and for all extracurricular activities.

Enrollment: 253

Age Range: Birth to 21 years

Program Description:

The Lake Drive School is a public school program for students who are deaf or hard of hearing which operates within the Mountain Lakes Public School District. The Lake Drive School provides a continuum of educational options for children with hearing loss from birth through high school graduation. The program serves resident students from Mountain Lakes, as well as students from out of district.

The school is dedicated to the development of literacy and communication. Professional staff include teachers of the deaf, speech language pathologists, educational audiologists, social workers, psychologists, occupational and physical therapists, sign language interpreters, counselors, and consultants in areas such as child psychiatry, feeding and oral motor disorders. A team of trained paraprofessionals and other support service providers, including sign language interpreters, complements professional staff.

Mainstream education with comprehensive support services is available throughout the Mountain Lakes School District for students with academic abilities. In addition, a team of itinerant teachers of the deaf provides support and inservice education to students who are educated in their home school districts.

Operated by: Toms River Regional

Enrollment: 9

Age Range: 6 to 13 years

Program Description:

The self-contained class for students with hearing loss at Silver Bay Elementary School is taught by a teacher of the deaf using a total communication approach. This program has a strong emphasis on language and speech development. The program is unique in that students participate in the self-contained program for half of the day, and the other half of the day, they are in regular education classes.

Operated by: Little Egg Harbor Twp. Schools

Enrollment: 4

Age Range: 10 to 11 years

Program Description:

The goal of the program for students who are deaf/hard of hearing in Little Egg Harbor is to support placements within the regular education programs, including academics, specials and extracurricular activities.

A teacher of the deaf provides in-class support, as well as pull-out replacement resource center programming at the middle school level. Interpreting services are available for after-school activities, such as art club, chorus, sports and band.

A teacher of the deaf will also be team-teaching in the preschool program within the district.

Operated by: Bridgewater-Raritan Regional Schools

Enrollment: 7

Age Range: 7 to 16 years

Program Description:

Currently, seven students enrolled in the Bridgewater-Raritan School District are auditorily impaired. Five of these students receive services in-district, with programs ranging from total mainstreaming in regular education programs with related services, to resource center replacement with certified teachers of the deaf. Two students attend private schools for the handicapped. The district employs one teacher of the deaf for the self-contained, primary-level Communication Impaired class. Two teachers of the deaf/teachers of the handicapped are on the resource center staff in the middle school. All decisions regarding programming are made based on the needs of the students.

Enrollment: 9

Age Range: 5 to 10 years

Program Description:

The auditory impairment program provides a language-based curriculum which is infused throughout the program. Although the instruction is provided using multimodalities, the students' preferred modality will be highlighted for instruction. In addition, strategies are utilized to improve and expand appropriate language skills.

The academic curricula for the program follow the scope and sequence of the district's general education curricula in accordance with the New Jersey Core Curriculum Content Standards. The special education curriculum provides additional guidelines for instruction.
